

28 april 2021 – v1

Kick off HSE Standard 3.0

Schiphol

Creating safe performance at Amsterdam Airport

Situation

- Lots of travelers per day
- Many companies located at Schiphol
- Many people who work at Schiphol
- Complex environment, 24/7
- Different clients, different standards
- HSE Standard with benchmark in the market (national and international)

Goal HSE Standard

- We want to create a "**Just Culture**" at Schiphol
- Prevent unsafe situations and **zero incidents**
- **Clarity**: the same rules everywhere
- **Joint** responsibility for a safe working environment at Schiphol
- **Increase** security level further

Stakeholders

For all involved in construction and maintenance activities:

- AAS as the client
- Main and subcontractors
- Tenants
- Concessionaires
- Consumers
- A Pier
- Maintenance parties
- Airlines & Handlers
- Government parties (environmental service, RWS, KMAR, etc.)

HSE Standard 3.0

- HSE Standard 3.0
 - Sanctioning policy
 - HSE Induction film
 - Safety pass
- 
- A large orange triangle is located in the bottom right corner of the slide, pointing upwards and to the left.

What are the changes? (1)

- Feedback from (main) contractors has been assessed and processed with respect to HSE Standard 2.0.
- HSE standard aligned with GROS at www.schiphol.nl/veiligheid
- HSE Standard extended with:
 - Report, register and investigate adverse events
 - Enforcement of HSE and disciplinary action
- Addition criteria H&S plan / Work plan / Task Risk Analysis
- Inspection of electrical work equipment in accordance with NEN 3140 - color coding cancelled

What are the changes? (2)

- Chapter 4 “Environment” aligned with Dutch legislation.
 - Alcohol and drugs - aligned with Dutch legislation.
 - Toolbox - changed from biweekly to monthly.
 - Temporary electrical facilities in line with Schiphol's requirements.
 - Security and access regulations linked to Schiphol regulations.
- 
- A solid orange triangle is located in the bottom right corner of the slide, pointing towards the top right.

Sanctioning policy

- Based on “Just Culture”
 - Connects to Schiphol Admission Regulations
 - In line with contractors policy
 - Focus on employees & employer
 - Identifying and reporting the role of supervisors
 - Maintain the role of safety experts
- 
- A large orange triangle is located in the bottom right corner of the slide, pointing towards the top right.

Safety instruction

We intend to introduce a safety pass, linked to an e-learning. But you can already view the Schiphol safety instruction at [schiphol.nl/veiligheid](https://www.schiphol.nl/veiligheid).

To be continued...

- Introduction of HSE Standard
 - Connection toolbox structure own company
 - Incident analysis
 - Planning drawn up on the basis of prioritization
- 
- A large orange triangle is located in the bottom right corner of the slide, pointing towards the top right.

Planning toolboxen 2021-2022

Maand	Onderwerp
