

SWOT analysis

Strengths

- Resilient network of destinations
- Strong hub position of Schiphol in Europe
- Sustainability at our premises
- Economic strength of the Randstad region and attractiveness of airport city

Opportunities

- Potential to capture strong post-COVID-19 demand
- Position Schiphol to recover connectivity during period of increased hub competition
- Digitalisation, automation and big data
- International activities and partnerships
- Sustainable aviation and innovation initiatives

Weaknesses

- Current operational situation at Schiphol
- Capacity shortage during peak hours: terminal, stands and railway station
- Operational and sourcing model
- Future reliability of assets

Threats

- Challenging geopolitical and macroeconomic climate
- Recurring pandemics in Asia and other regions
- Terrorism and cyberthreats
- Worsening labour market and ageing workforce
- Pressure on cargo volumes from slot allocation system
- Possible impact of nature permits
- Impact of ruling on nitrogen emissions
- European Entry-Exit System legislation
